RE: School Volunteers

The many talents and experiences that our generous volunteers bring to Mad River Local Schools are among our greatest resources. We welcome and appreciate the individuals who support us in the classrooms and at our activities and athletic events. The partnership established between the school and the volunteer provides a shared responsibility in the learning experience.

In March 2001, a new Ohio law went into effect requiring school districts and most other agencies serving children to notify all volunteers who might have unsupervised access to a child on a regular basis that they might be subjected to a criminal background check. This document will serve as notice to all volunteers now serving our schools and to all new volunteer applicants.

On behalf of the Mad River Local Schools, please accept our gratitude for your commitment to bettering the lives of young people. Should you have any questions, please contact me at your earliest convenience. Best wishes for continued success.

Necia Nicholas
Director of Human Resources
